This is what your assembled REAPER Paper Foldable will look like!

Print template on sturdy, cardstock-like paper. Cut-out pieces carefully along solid black lines and on indicated slits (hobby knife recommended). Score and fold along dashed lines. Assemble each piece by attaching folded tabs to corresponding sides (double-sided tape or glue stick recommended). Complete REAPER set by connecting pieces using tabs and slits where indicated.

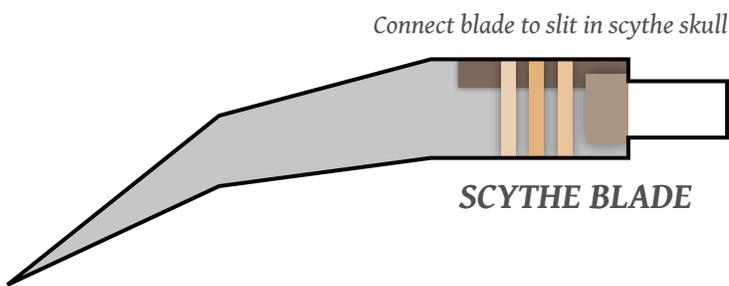

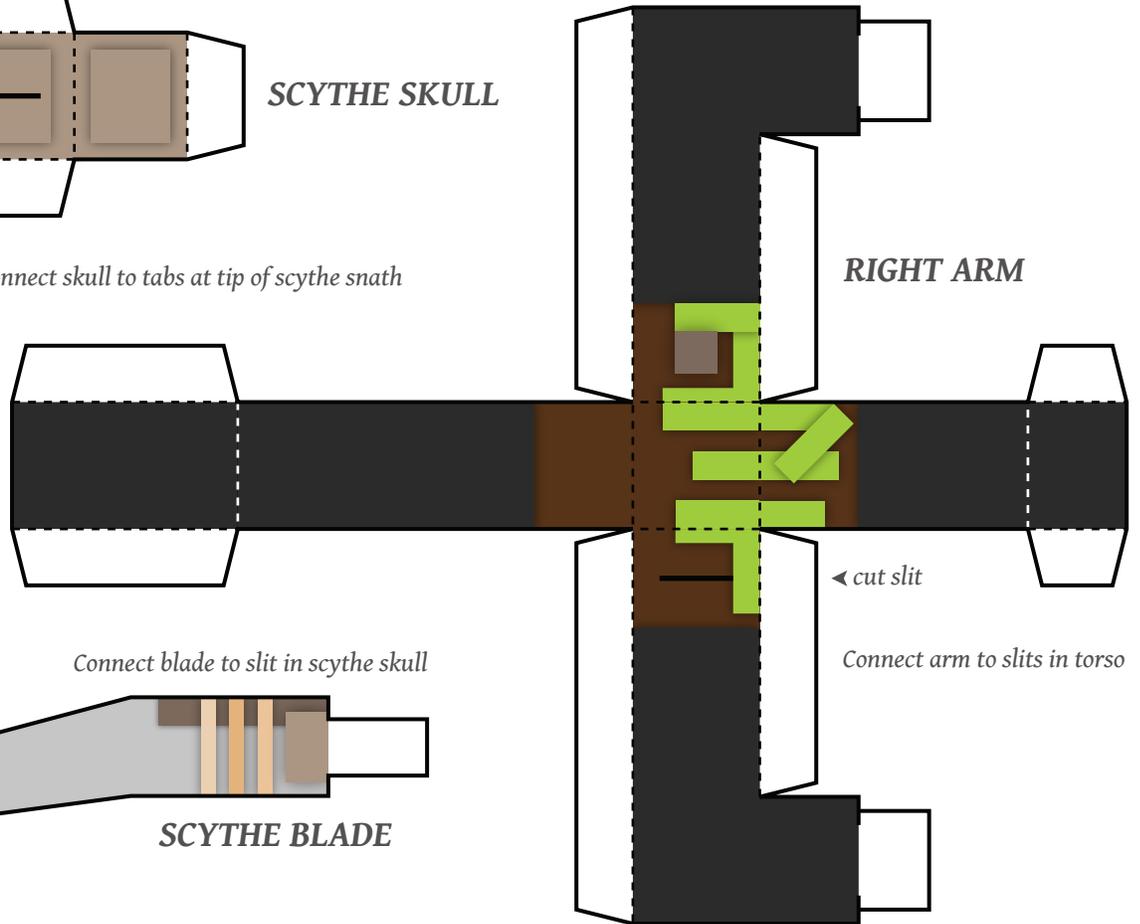

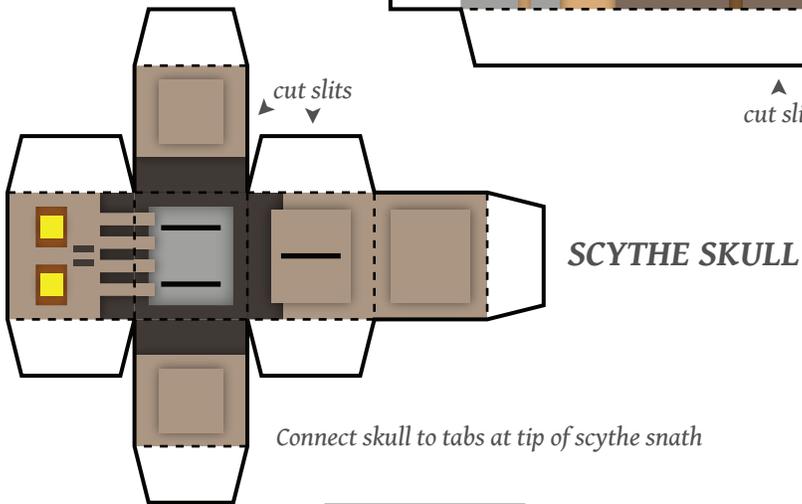

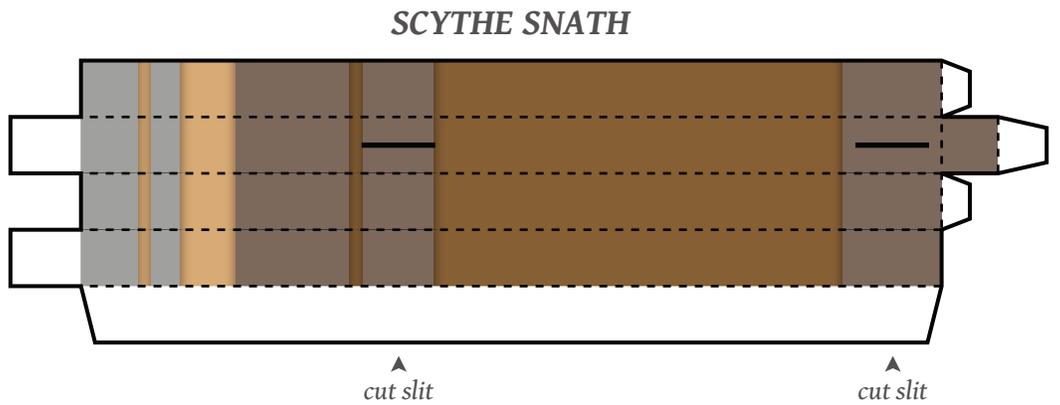

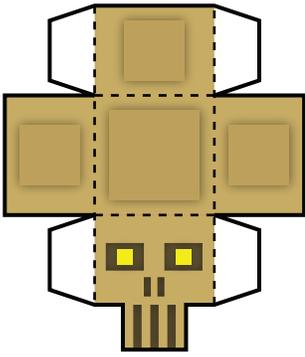

SCYTHE GRIPS

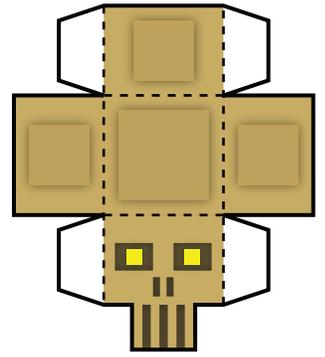

Use grips to connect scythe to slits in hands
